Legal notice and disclaimer. SEVEN-G is a reference methodological framework provided "as is" and for information purposes only. It does not constitute legal, regulatory, financial or professional advice, nor does it guarantee compliance with any law or standard. References to general regulation (such as the EU AI Act, the GDPR, DORA or NIS2), to technical standards and to regulation specific to each sector or jurisdiction may be incomplete, may not apply to a particular case or may become out of date as a result of regulatory changes, interpretations or supervisory positions after their consultation date. **Each organisation that uses SEVEN-G is solely responsible for identifying the regulation that applies to it, verifying that it is current and certifying its own regulatory compliance**, with the appropriate qualified advice. This methodology is a generic, free aid shared with the community so that nobody has to start from scratch; each person or organisation can and should adapt it to its own use. It must not be inferred that its legally sensitive parts have been reviewed by legal counsel: those reviews, for each company or sector, are the ultimate responsibility of the company, consultant or organisation that uses it. Although every effort is made to keep it up to date, some regulation may have changed without being reflected here. To the fullest extent permitted by law, the author accepts no responsibility whatsoever for the effects of its application in any organisation or for its full applicability. The methodology does not grant certification of any kind. The author accepts no liability for any use made of this content or for any decisions taken on the basis of it. The data, figures, companies and cases in the examples are fictitious or illustrative.

Why it matters. When an AI system plays a part in decisions on working conditions or employment, informing before using it is legal compliance, not internal communication: for systems that require it, G5 cannot be resolved as *Proceed* without evidence that the information has been provided, and the lack of it does not allow *Proceed with conditions* (50 §7.2). This template gives the company an understandable sheet and a record with date, content and response that shows what was communicated, to whom and when. Without it, risk RT-ORG-07 (failure to inform and consult) is only discovered when the workers' representatives raise it.

Instructions for use

Aspect	Guidance
When it is used	Per system: in phase 3 it is determined whether there is an obligation (section 3); in phase 4 the sheet is prepared (section 4); information or consultation takes place before the pilot with real people and, in any case, before use in production (section 5); it is updated at each relevant change and reviewed at R6 (50 §7.2 and §13). Per company: the internal register in section 6 is maintained continuously.
Who completes it	The AI Product Owner with the people function or, if there is one, the labour relations lead for AI (50 §4.2). The determination in section 3 is made by labour relations and legal counsel.
Who verifies it	AI Office in Lite; AI Auditor in Enterprise.
Who decides or approves	The AI Sponsor and the Head of People approve the sheet and the timing of delivery (34 §3.9). The *gate* body checks the evidence at G5.
Stage, *gate* or moment	G3 (obligation analysed, criterion G3.16), G5 (information provided when mandatory) and R6 (information updated). The internal register is reviewed in C4.
Tool	T20 · Adoption and capacity plan (34 §3.9). The internal register is derived from the T02 inventory, field *Information to workers and their representatives* (32 §3.5).
Reference document	50 §7 and §8; 23 §9.3, §11.1 and §13.2; 32 §3.5; 34 §3.9; P11; P17; P20.
Lite versus Enterprise	**The same in both intensities when it is mandatory** (23 §13.2): no field of this template may be omitted in Lite if section 3 concludes that there is an obligation.

Completion rules:

- **Understandable to non-specialists** (measurement rule 10): the sheet explains parameters and rules without disclosing source code (50 §7.3).
- **Those affected first:** affected groups and their representatives learn of the changes before the rest of the organisation and before external parties (50 §10.1).
- **Jurisdiction.** The references in section 3 are those of Spain and the European Union set out in 50 §7.1 and 34 §3.9; in other countries they are replaced by those identified in the context statement (P02).
- This template does not constitute legal advice. The obligation, its content and its timing are determined by legal and labour counsel.

Determination of the obligation

3.1 Identification questions (50 §7.2, step 1)

#	Question	Answer (Yes · No · No data)	Source
1	Does the system play a part in decisions that may have an impact on working conditions?		P20
2	Does it play a part in access to or retention of employment?		P20; P11
3	Does it profile workers or candidates?		P11
4	Is it a high-risk system under Annex III, point 4 (employment and workers management), used in the workplace?		P11

#	Question	Answer (Yes · No · No data)	Source
5	Does it change the organisation of work even if it is not a decision-making algorithm?		P20

3.2 Applicable references (50 §7.1; 34 §3.9)

Reference	What it requires	Applies?
EU AI Act , Art. 26(7)	Deployers who are employers inform workers' representatives and the affected workers before putting into service or using a high-risk AI system in the workplace.	
Estatuto de los Trabajadores (Workers' Statute) , Article 64.4.d)	Right of the works council to be informed of the parameters, rules and instructions of the algorithms or AI systems that affect decisions that may have an impact on working conditions, access to and retention of employment, including profiling.	
Estatuto de los Trabajadores, Article 64 (remainder), and applicable collective agreement	Information and consultation on changes in the organisation of work; the collective agreement may extend obligations.	
GDPR , Arts. 13, 14, 15, 22 and 88	Information to data subjects, right of access, automated individual decision-making and processing in the employment context.	
LOPDGDD , Arts. 87 to 91	Digital rights in the workplace.	
Other jurisdictions (P02)		

3.3 Conclusion (50 §7.2, step 2)

Field	Content	Guidance
Conclusion		Information mandatory · Information and consultation mandatory · Information recommended · Not applicable.
Recipients		Workers' representatives · affected workers · both.
Timing		Before the pilot with real people · before production · other set by counsel.
Legal note		Reference linked in P11.
Signed by		Labour relations and legal counsel, with date.

System information sheet

The eight points of 50 §7.3. The summarised version (points 1, 2, 5 and 7) feeds the internal register in section 6.

#	Point	Content	Guidance
1	Identification		System, purpose, area, owner and supplier.
2	Decisions affected		Which decisions it supports or makes, about whom and with what autonomy (A0 · A1 · A2 · A3); limits in 50 §8.2.
3	Data		Categories, origin and period; exclusion or justification of special categories.
4	Parameters and rules		Main variables and their relative importance in understandable terms; rules and thresholds; instructions given to the system.
5	Human intervention		Who reviews, with what authority and how to disagree (P17).
6	Controls		Bias testing and summary result; monitoring; review (P22, P25).
7	Rights		How to request information, an explanation or human review; complaints channel.
8	Changes		Version, date and changes from the previous version.

(illustrative example, point 2) "The system proposes the weekly shift allocation for the logistics centre based on the volume forecast and the recorded preferences. It acts with A1 autonomy: the shift manager validates or modifies each proposal before publishing it. It does not use health or trade union membership data."

05

Register of information and consultations

One row per delivery, meeting or response. **Moment:** Before the pilot · Before production · Relevant change · R6 · At the request of the representatives.

Code	Date	Moment	Recipient	Type	Sheet version	Means	Questions or position of the representatives	Company response and date	Refe (mir ackı
INF-AAAA-NNN			Works council · delegates · affected workers	Information · Consultation		Meeting · in writing · intranet			
(illustrative example) **INF-2026-004**	14-10-2026	Before the pilot	Works council	Information	1.0	Meeting and delivery in writing	Asks whether productivity data will be used in individual performance evaluation	Written response on 21-10-2026: they are not used to evaluate people (50 §9.2)	Minu mee 202

06

Internal register of systems that affect employees

Company register, accessible to all employees (50 §7.4). It is derived from T02: systems with exposure to employees or with decisions about people in the *Employment and labour relations* scope (32 §3.3).

Code (T02)	System	What it is used for	Groups	Decisions and autonomy	How to request human review	Sheet version	Latest information to the representatives	System status
SIA-AAAA-NNN							INF-AAAA-NNN, date	Pilot · In production · Suspended · Retired

Code (T02)	System	What it is used for	Groups	Decisions and autonomy	How to request human review	Sheet version	Latest information to the representatives	System status
(illustrative example) **SIA-2026-030**	Shift allocation	Proposes the weekly shifts for the logistics centre	Warehouse staff	Shift allocation · A1	Shift manager or the people complaints channel	1.0	INF-2026-004, 14-10-2026	Pilot

Quality criteria

#	Check	Status
1	The obligation has been analysed in phase 3 with legal input (criterion G3.16 of document 21).	Met · Not met · Not applicable · Pending
2	The sheet covers the eight points of 50 §7.3 and is understandable to non-specialists.	
3	If information is mandatory, it is recorded as provided before the pilot with real people and, in any case, before G5 (23 §11.1; 50 §7.2).	
4	Each delivery has a date, recipient, sheet version and reference to minutes or acknowledgement, and the questions have a recorded response.	
5	Relevant changes have led to a new version of the sheet and to new information (reviewed at R6).	

#	Check	Status
6	The internal register is accessible to employees and matches the inventory.	
7	Information and consultation are recorded when regulations or agreements require it (question D5.08 of document 11).
