Legal notice and disclaimer. SEVEN-G is a reference methodological framework provided "as is" and for information purposes only. It does not constitute legal, regulatory, financial or professional advice, nor does it guarantee compliance with any law or standard. References to general regulation (such as the EU AI Act, the GDPR, DORA or NIS2), to technical standards and to regulation specific to each sector or jurisdiction may be incomplete, may not apply to a particular case or may become out of date as a result of regulatory changes, interpretations or supervisory positions after their consultation date. **Each organisation that uses SEVEN-G is solely responsible for identifying the regulation that applies to it, verifying that it is current and certifying its own regulatory compliance**, with the appropriate qualified advice. This methodology is a generic, free aid shared with the community so that nobody has to start from scratch; each person or organisation can and should adapt it to its own use. It must not be inferred that its legally sensitive parts have been reviewed by legal counsel: those reviews, for each company or sector, are the ultimate responsibility of the company, consultant or organisation that uses it. Although every effort is made to keep it up to date, some regulation may have changed without being reflected here. To the fullest extent permitted by law, the author accepts no responsibility whatsoever for the effects of its application in any organisation or for its full applicability. The methodology does not grant certification of any kind. The author accepts no liability for any use made of this content or for any decisions taken on the basis of it. The data, figures, companies and cases in the examples are fictitious or illustrative.

Why it matters. The minutes are the evidence that the competent body decided, with a quorum, with no undeclared conflicts and with the clearance that was required. They are required by maturity (11, D1.02, D1.03, D1.07 and D1.09) and by criteria G2.12 and G7.09 of document 21 for Transform initiatives. Without them, a board decision cannot be linked to the *gate* decision (P29) or to the recommendations and decisions register (document 62), and traceability breaks down.

Completion rules:

- This template **does not replace the corporate minutes** required by applicable law: it feeds them or is incorporated into them (60 §1; 62 §1).
- Each resolution carries a number within the meeting (AC-01, AC-02...) and, where applicable, the code of the corresponding register: DEC-AAAA-NNN, REC-AAAA-NNN, *gate* decision (P29), EXC-AAAA-NNN (P40), NC-AAAA-NNN or INC-AAAA-NNN.
- DEC and REC codes are assigned when the request is recorded and are kept even if the decision is deferred (62 §3 and §10.3).
- Decisions and assignments are recorded in T18 within **5 working days** of the meeting (61 §8.4; 62 §8).
